Annex sheet "7a"

Is being deposited with the United States Postal Service "Express Mail Post Office to Addressee" service under 37 CFR 1.10 on the date indicated above and is addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231

Debra G. Conrad

(Typed or printed name of person mailing paper or fee)

Debra G. Conrad

(Signature of person mailing paper or fee)

Each paper letter or communication relating to an international application during the international stage for which a date of filing is to be obtained as of the date of mailing must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventors (s) and the title of the invention.

The label number need not be placed on each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter or a fee, along with the certificate of mailing by "Express Mail". Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is place.

LETTER REGARDING ANNEXES TO THE INTERNATIONAL PRELIMINARY
EXAMINATION REPORT

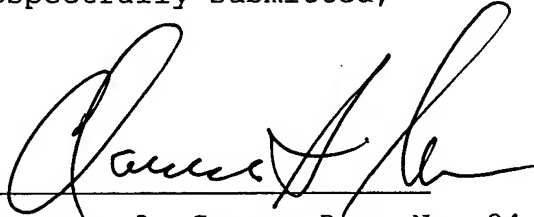

Dear Sir:

The applicant for the above-identified patent application has recently informed us that the Amended Sheet "7a" was not annexed to the copy of the International Preliminary Examination Report dated October 16, 2001. The amended sheets "7" and "7a" were however, mentioned in the International Preliminary Examination Report as a basis of the report. The applicant requested in a letter to the International Preliminary Examination Authority (Swedish Patent Office) that the office check that page "7a" has been annexed to the report. They further requested that if page "7a" is missing, that the office inform the International Bureau of the annex and communicate the correct annexes to the Elected Offices.

Applicant's attorney encloses herewith the missing annexed page "7a". The amended description contained on amended sheet "7" was submitted with the International Preliminary Examination Report when the U.S. National Phase filing for this application was entered on January 7, 2002. We note

that the material contained on the annex page "7a" is material that was in the original application and due to the amended material on page "7", was carried over to the additional page "7a".

Respectfully submitted,

Clarence A. Green, Reg. No. 24,622
